

TTP

SINGLE SPEED TORQUE GUN

The safest, most simple and accurate Pneumatic Tool available!

- Accurate torque with low noise, low vibration and less pressure
- Optional "Safety Paddle" for 100% pinch-free operation
- Obtain maximum torque at only 90 PSI
- Extensions available for job specific applications
- Made from lightweight high-strength material
- Precision gearing produces constant calibrated power for high accuracy
- Highest power-to-weight ratio of any comparable product
- Splined reaction area allows for the use of custom reaction fixtures

FRL UNIT

Filter, Regulator & Lubrication Unit. For use with all torque guns. Optional Silencer Unit will reduce operational noise by 35%, (very low 70-75 Db)
